Merchandise

Schouwburg Concertzaal Tilburg does not charge a fee for merchandise. A suitable location will be determined on the day itself in consultation with the management representative. We can provide power and a light at the chosen location.

Accessibility

The main entrances of the Schouwburg, Concertzaal and Studio are located on the Schouwburgring. The coordinating address and the backstage entrance is Louis Bouwmeesterplein 1, 5038 TN Tilburg.

In the center of Tilburg (within the ring roads), there is an environmental zone. This area is not accessible to diesel trucks with emission class 0 to 5.
For more information and to apply for an exemption, visit the website of the Municipality of Tilburg:
Ontheffing milieuzone - Gemeente Tilburg

Parking

At Schouwburg & Concertzaal Tilburg, we have a limited number of parking spaces available. These are allocated on the day itself in consultation with the porter. Unfortunately, it is not possible to reserve parking spaces in advance. However, it is always possible to park at the nearby *"Schouwburg"* parking garage. Parking there is at your own expense and subject to the regular rates. We do not provide exit tickets for this garage.

Please consider that Thursday evenings are extra busy due to extended opening hours of stores in the city centre. Parking takes considerably more time than on other days. Extra crowds can also be expected on Sundays and holidays.

Public transport

Tilburg Central station is located at 15 minutes walking distance from the theatre. It also an option to take a city taxi or a bus.

Loading dock

Loading dock is on street level, without cover.
The Stage is 3 meter beneath street level. The stage is accessible via freight elevator. Maximum weight 1500kg

Dimensions elevator:	4,00 x 1,20 x 2,10 meter (LxWxH)
Smallest passage to the stage:	1,20 x 2,00 meter (LxW)

CAUTION:
Flightcases with wardrobe can only reach the dressing rooms via stairs

Electrics and infrastructure

Power distribution

All high voltage current connections have CEE-norm red connectors, with 3 phases, zero and ground

63A	1x	Stage right, upstage (7m to stage)
		Standard for dimmers floor package
	1x	Stage left, upstage (7m to stage)
32A	1x	Stage right, upstage (7m to stage))
		From dimmers floorpackage
	1x	FOH (15m to stage)
	2x	In the foyer

DMX

The DMX- network is installed as a star-network, of which the middle is in a patch bay in the back of the hall. DMX can be sent and received at multiple locations throughout the venue.

Network

The venue also has an extensive CAT7 network. Multiple lines for audio, video and sACN are located throughout the venue.

Lighting

LED conversion

The LED fixtures in the grid can be controlled with one channel. Each light can be programmed with any color desired by the visiting company.

If desired, it is also possible to control the LED fixtures in their full mode with sACN, or with a separate DMX line.
For a current patch list, contact our technical department at techniek@schouwburgconcertzaaltilburg.nl
