Accessibility

The main entrances of the Schouwburg, Concertzaal and Studio are located on the Schouwburgring. The coordinating address and the backstage entrance is Louis Bouwmeesterplein 1, 5038 TN Tilburg.

In the center of Tilburg (within the ring roads), there is an environmental zone. This area is not accessible to diesel trucks with emission class 0 to 5.

For more information and to apply for an exemption, visit the website of the Municipality of Tilburg:

[Ontheffing milieuzone - Gemeente Tilburg](#)

Parking

The municipality of Tilburg does not provide free parking around the theatre. There are multiple paid car parks around Schouwburg Concertzaal Tilburg. Parking can be paid with cash or by debit- or credit card.

Please take into account that Thursday evenings are extra busy due to extended opening hours of stores in the city centre. Parking takes considerably more time than on other days. Extra crowds can also be expected on Sundays and holidays.

Public transport

Tilburg Central station is located at 15 minutes walking distance from the theatre. It also an option to take a city taxi or a bus.

Loading dock

Loading dock at street level, in house with dock leveller.
Stage is on the 2nd floor, accessible by elevator.

125A	1x	Stage Right
63A	1x	Loading dock
32A	1x	Stage right (audio)
	1x	Stage left (audio)
	2x	Loading dock

DMX

Multiple patch points are located at FOH, side stage right, stage entrance and multiple points in the cable ducts in the stage. The Concert hall does not have a separate DMX cable network, all DMX is transmitted through CAT7 cabling.

Network

As mentioned above, multiple CAT7 lines run across the stage and to FOH. These lines can all be used for audio, video and sACN.

The CAT7 lines for our audio installation are separate. All CAT7 lines come together at a patch bay at the stage entrance.

Lights

LED conversion

All fixtures in the Concert hall are LED. These fixtures can be controlled with DMX or sACN.

All fixtures can be controlled by the visiting company with 1 dimmer channel per fixture. The fixtures can be programmed with a desired color, beamwidth and position with the lighting console of Schouwburg Concertzaal Tilburg.

If desired, It is also possible to control the LED fixtures in their full mode with sACN.

For a current patch list, contact our technical department at techniek@schouwburgconcertzaaltilburg.nl
